

ecoway

Embrace sustainable living with organic products.

// We are a  
**sustainable  
company** //

Ecoway is paving the way for a sustainable and circular economy by providing organic, biodegradable, and sustainable alternatives to plastic packaging. Ecoway is a sustainable food packaging enterprise with the objective of lessening the environmental effects of climate change through its products. Our biodegradable and compostable products will naturally decompose into nutrients that enrich the soil. Our sustainably derived plastic packaging substitutes will offset greenhouse gas emissions and drastically cut waste output throughout their 180-day averagedecomposition period.

## // We envision //

A world where the human ecological footprint is in balance with nature and a safer planet for our future generations.

## // We strive //

To spread awareness and facilitate adoption of environment-friendly products and practices to lower our ecological footprint

## // We offer //

To produce organic and sustainable packaging using eco-friendly raw material.

## // Our sustainable approach //

Our range of biodegradable products are made from 100% organic solutions, are compositable, and reduce plastic waste.

# // About **ecoway** //

Fighting climate change for a better planet.

Our extensive product line includes bags, containers, and more, designed to address the unique needs of our valued customers. As a certified organic products manufacturer in the UAE, we take pride in contributing to a safer world for both consumers and the environment.

Ecoway is not just a brand; it's a promise to minimize our impact on the environment. We are dedicated to providing sustainable and innovative packaging solutions that play a crucial role in preserving and restoring Earth's natural resources and biodiversity. By embracing organic alternatives over single-use plastics, we are actively reducing plastic waste and paving the way for a greener, healthier planet.

Join us on our journey toward a sustainable future! together, let's make a positive impact by choosing organic, eco-friendly solutions from Ecoway Global.

# // Core values //

## Commitment

Our goal is to create a sustainable and eco-friendly substitute and actively encourage sustainable lifestyle by promoting the use of organic alternatives to single-use plastics, increasing recycling, and reducing the amount of plastic used.

## Future-Focused

In line with the UAE's vision to become the hub of innovation, we are constantly developing the versatility and affordability of plastic alternatives. Hence, we facilitate the adoption of environment-friendly products and offer a truly organic alternative that helps reduce all plastic waste.

## Awareness

At Ecoway, we will always strive to raise our voices against pollution and climate change. Our ecologically conscious actions are the catalysts that will inspire people to implement changes necessary to create a pollution-free future. We will keep increasing awareness to make sure that everyone collaborates to build a sustainable future.

## Sustainability

We are purpose-driven to develop and improve packaging that is useful and convenient for your day-to-day activities. Ecoway's shift to zero waste is focused on being eco-friendly and becoming regenerative for Mother Nature.

# 1 Cassava based

Discover eco-conscious packaging with our cassava-based products. Biodegradable, compostable, and derived from a renewable source with composting within 180 days.

T-shirt Handle Bags

Grip Hole Handle Bags

Bin Liners

## Main Features

- Organic
- No toxic fumes
- Dissolves in hot water
- Soil friendly
- Composts in 180 days

## 2 Kraft & paper based

Embrace sustainable living with our kraft and paper-based products. Naturally crafted, these sustainable solutions offer a stylish and earth-friendly choice for conscious living.

Kraft Salad Bowls

Soup Tubs

Brown Kraft Paper Bags

Biodegradable Paper Cups

### Main Features

- Sustainable
- Superior quality
- Recyclable
- Certified food grade
- Biodegradable

Experience eco-excellence with our bagasse-based products. Crafted from sugarcane waste, these sustainable solutions offer a green choice for a cleaner, brighter future.

Trays

Biodegradable  
Burger Boxes

Bowls

Round Plates

Calm Shell Trays (With Compartments)

Containers

## Main Features

- Organic
- Composts in 180 days
- No toxic fumes
- Soil friendly

## 4 Corn starch based

Elevate sustainability with our corn starch-based products. Derived from renewable resources, these eco-friendly solutions provide a compostable and planet-friendly alternative.

Cutlery

PLA Bags

## Main Features

- Organic
- Composts in 180 days
- No toxic fumes
- Soil friendly

# // Chairman's message //

At Ecoway Global, sustainability is just not a goal – it's our ethos. Ecoway was established with the objective of reducing the use of single-use plastics and substitute them with organic, bio-degradable, and sustainable products which are a testament to innovation with a purpose. Crafted from recycled materials, they embody the circular economy, ensuring that waste is minimized, and resources are conserved.

Our commitment goes beyond products; it's a pledge to combat single-use plastics and reduce environmental impact. We've transformed ideas into eco-friendly realities, reshaping the packaging industry. Every choice you make reverberates in our collective effort for a healthier planet. Join us in this journey toward sustainability—because responsible choices today shape a brighter tomorrow. Thank you for being part of our mission.
